

Indigent Health Care Report

A new report from Morningside Research and Consulting summarizes the indigent health care programs operating in all 254 counties in Texas.

The report contains never-before-compiled information about Texas' program for providing health care to residents living well below the federal poverty level.

This report and companion data file are essential for policy makers and program administrators who need to know who this program serves and how it is funded.

The **summary report** aggregates the data provided by the 300 programs responsible for indigent health care in Texas and contains information on the following:

- Program profile
- Enrollment
- Expenditures
- Diagnoses
- Tax revenue
- Policies
- Income eligibility guidelines
- Analysis of the issues and conclusions

The **data file**, in Microsoft Excel, contains detailed information about each of the 300 programs in Texas with statutory responsibility for indigent health care. The following is a sample of the extensive information available for each program:

- Program name
- Income eligibility guidelines
- Program type
- Counties of operation
- Indigent health care expenditures
- Unduplicated enrollees

Report	Unit Price	Quantity	Total
Summary Report	\$150		
Date File (Excel format) – includes summary report	\$3,000		
Subtotal
